BUFFALO BOARD OF EDUCATION RECOGNIZES SERVICE OF PRINCIPALS AS IT DESIGNATES OCTOBER AS NATIONAL PRINCIPALS MONTH

President Barbara A. Nevergold signed a resolution passed by the Buffalo Board of Education to recognize the important work of principals and assistant principals as leaders.

National Principals Month highlights the important role of leadership in creating a school climate where both students and staff can reach their full potential.

The resolution cites the vision, dedication, skill and determination of Principals and Assistant Principals as the force behind educational excellence.

The BPS joins with the American Federation of School Administrators (AFSA), the national umbrella organization for BCSA Local 10, and the U.S. Congress to call attention to the vital work done by building administrators. May the spirit of this recognition fill the school year ahead.
