

## **Buffalo BCSA Member W. Charles Brandy Honored by Black School Educators**

### **Work on Equity and Curriculum Cited**

*W. Charles Brandy  
BCSA Member and  
Director of Social Studies,  
Buffalo, NY*

In Albany, NY, W. Charles Brandy, Director of Social Studies, is being honored by the Westchester Alliance of Black School Educators (WABSE) on Friday, April 8. Post 2020, following the murder of George Floyd, many school districts across the region, state, and nation, including Buffalo Public Schools, were forced to self-reflect on the curriculum and policies being delivered to our staff, students, and community members.

Mr. Brandy is one of many district-level leaders who led the charge in changing the narrative locally because of the global pandemic and social unrest that emerged at this pivotal point in history. He has worked for equity and policy change for many years through his service with the National Alliance for Black School Educators (NABSE) and Omega Psi Phi, Fraternity Incorporated. He is just one of many school leaders working on a national level to pass a legislative act named The Amistad Act A9399, which seeks to change the education system and serve as the bedrock of true change around bias and inequities geared toward minorities and people of color. BCSA, Local 10 wishes to congratulate Mr. Brandy on his recognition of service and upcoming award!
